Part I. News and Announcements

Knowledge and Innovation Program's "Three Lunch Deal" Open to Faculty

When: Tuesday, September 30, 2014 - Monday, October 27, 2014 (all day)
Where: Various campus buildings/locations

The Office of Research has announced the FY’15 seed grant program known as the Knowledge & Innovation Program (KIP). To facilitate discussion and collaboration among faculty, the Dean’s offices of the five schools are sponsoring up to 3 lunches for small groups of faculty (2-4). Groups may still participate even if a letter of intent was not submitted to KIP.

Ready to go to lunch? Interested, but don't have a group with which to collaborate? Contact David Spooner (spoond@rpi.edu).

NIH Operates Under a Continuing Resolution

The Department of Health and Human Services (HHS), including NIH, operates under the Continuing Appropriations Act, 2015 signed by President Obama on September 19, 2014. This Act (CR) continues government operations through December 11, 2014 at 99.9 percent of the FY 2014 enacted level.

Continuing the procedures identified under NOT-OD-14-055 and consistent with NIH practices during the CRs of FY 2006 – 2014, the NIH will issue non-competing research grant awards at a
level below that indicated on the most recent Notice of Award (generally up to 90% of the previously committed level). Upward adjustments to awarded levels will be considered after FY 2015 appropriations are enacted.

New York State Pollution Prevention Institute (NYSP2I) Research & Development Program Request for Proposals (RFP)

NYSP2I’s R&D Program focuses on applied research — research that will lead to more immediate solutions to keep New York State companies competitive in the marketplace while reducing their environmental footprint. These R&D projects will be instrumental in bringing innovative pollution prevention technologies to market. R&D projects are conducted at NYSP2I’s four partner universities: Rochester Institute of Technology (RIT), Clarkson University (Clarkson), Rensselaer Polytechnic Institute (RPI), and the State University at Buffalo (UB).

The RFP is available at http://www.rit.edu/affiliate/nysp2i/sites/rit.edu.affiliate.nysp2i/files/p2i_rfp-2014-final.pdf

MARK YOUR CALENDAR

October 8-9, 2014, Fort Worth, TX
Manufacturing Innovation Topics Workshop

The Advanced Manufacturing Office (AMO) and the Office of the Secretary of Defense Manufacturing Technology Program (OSD ManTech) will host a workshop on October 8-9, 2014 in Fort Worth, TX. Attendees will discuss AMO's recent Request for Information (RFI) on Clean Energy Manufacturing Topic Areas as well as the recent areas of interest announced by OSD ManTech for a new Manufacturing Innovation Institute. The Technical Focus Areas for each office are:

DOE
- Advanced Materials Manufacturing
- Advanced Sensing, Control, and Platforms for Manufacturing
- High-Efficiency Modular Chemical Processes
- High Value Roll-to-Roll Manufacturing

DOD
- Engineered Nanomaterials
- Modern Fiber and Textiles

AMO and OSD ManTech seek information on mid-Technology Readiness Level (TRL) research and development needs, market and supply chain challenges, and shared facility needs for
advanced manufacturing. The offices would like to know what roadblocks to advanced manufacturing technology potentially could be overcome by pre-competitive collaboration as part of a Manufacturing Innovation Institute.

*Managing New York Ocean Resources: Connecting Science and Policy*

As directed by the National Ocean Policy, Regional and New York Ocean Action Plans and Ocean Assessments are being drafted that will protect and guide our management of marine resources for now and for the future. The New York Marine Sciences Consortium will host a meeting to gather input from the scientific community, policy makers, other stakeholders and the general public to inform these action plans and assessments. Input from the conference will be used to develop recommendations and identify critical knowledge gaps regarding ocean-related human uses, natural resources, and cultural factors.
